

NEW GLUTEN-FREE TRADITIONAL SAUSAGE MIX

For many years now our CMT Traditional Breadcrumbs Sausage Mix is being used as an ingredient for many successful sausages. And there is no reason to believe that this success will not continue in future.

But now we can offer a **REVOLUTIONARY** gluten-free variation of our “Traditional” to complement our conventional “Traditional”. On the Continent we have found a crumb, that can replace the breadcrumbs, which contain gluten. All other ingredients of the mix remain unchanged. This means, that we still use all the herbs and spices and all the technological substances like colour and flavour enhancer in our GLUTEN-FREE Traditional Sausage Mix. This ensures that the famous flavour profile has not been changed for the GLUTEN-FREE variation of the CMT Traditional Sausage.

It also means that one can use this product in exactly the same way as the conventional Traditional Sausage Mix. Neither the recipe nor the method for making sausages have to be changed.

Our GLUTEN-FREE Traditional Sausage Mix is packed in cases of 5x1.25 kg and costs £ 5.45/kg or £ 34.06 per case. This equates to only approx **35p/lb (70p/kg) finished Traditional Sausage**.

If you would like to try our new GLUTEN-FREE Traditional Sausage Mix, then please call us or fax the order note below back to us.

Kind regards

Juergen Maurer

I would like to try the NEW CMT GLUTEN-FREE Traditional Sausage Mix 600-SM-1303.
Please send _____ cases at £ 34.06/case to:
